Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 December 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-13 is/are pending in the application.

DETAILED ACTION

Applicant's Amendment filed on 12-3-02 has been received and entered in the case. The rejections set forth in the previous Office Action are partially maintained as indicated below.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 and 10-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Limitation "adjusting the predetermined period in accordance with an internal signal generated in *the interior*" (emphasize added), line 6-7 of claim 1, appears to be misdescriptive because drawing (figure 1) discloses a timing circuit (block 10) being independent from activities of the internal circuit (i.e., memory cores, control circuit). It is noted that limitation "*the interior*" is understood for referring to "an internal circuit", line 3. Otherwise, that limitation "*the interior*" lacks antecedent basis.

Claims 2-6 and 10-11 are rejected for being dependent upon the rejected claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2816

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1, to the extent to be understood, is rejected under 35 U.S.C. 102(b) as being anticipated by the Sawada reference (U.S. Patent 5,365,481).

Sawada discloses in figures 1-2 an apparatus comprising power-on reset circuit 19 for activating a reset signal POR in response to an initial supply of a power supply Vcc to initialize an internal circuit 10, and for inactivating the reset signal after a predetermined period following the initial supply to terminate an initialization of the internal circuit (col. 8, lines 17-36); and a timing changing circuit 18d (figure 2) for adjusting the predetermined period (col. 10, lines 5-9) as required by claim 1.

Response to Arguments

5. Applicant's arguments filed 12-3-02 have been fully considered but they are not persuasive.

Applicant has amended claim 1 to add limitation "*in accordance with an internal signal generated in the interior*" and made arguments based on this limitation to overcome the rejection by the Sawada reference. Examiner recognizes validity of the arguments. However, Examiner still maintain the rejection of claim 1 since the newly added limitation, at best, does not correctly describe the invention as noted in paragraph 1 above. Therefore, patentability of newly added limitation cannot be determined.

Regarding to the argument for claim 2, Applicant has made a valid point. Therefore, the rejection was withdrawn.

Allowable Subject Matter

6. Claims 7-9 and 12-13 are allowed.

7. Claims 2-6 and 10-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to disclose an apparatus comprising elements being configured as recited in claims. Specifically, none of the prior art teaches a voltage generator as recited on lines 2-5 of claim 3; a voltage generator and a signal selection circuit limitations as required by claim 7.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
